TAG+9
The Ninth International Workshop on Tree Adjoining Grammar and Related Formalisms

Jun 6-8, 2008
Program Schedule and Tutorial Schedule

Talks are 20 minutes each, with 10 minutes for questions and change-over time to next talk.

Saturday, June 7th, 2008

9–9:15   *Introductory Remarks*

9:15–9:45   *A Psycholinguistically Motivated Version of TAG.*
Vera Demberg and Frank Keller.

9:45–10:15   *Binding Theory in LTAG.*
Lucas Champollion.

10:15–10:45   coffee break

10:45–11:15   *Flexible Composition and Delayed Tree-Locality.*
David Chiang and Tatjana Scheffler.

11:15–11:45   *Flexible Composition, Multiple Adjoining and Word Order Variation.*
Joan Chen-Main and Aravind Joshi.

11:45–12:15   *Lambek Grammars, Tree Adjoining Grammars and Hyperedge Replacement Grammars.*
Richard Moot.

12:15–2:00   lunch break

2:00–2:30   *A Prefix-Correct Earley Recognizer for Multiple Context-Free Grammars.*
Makoto Kanazawa.

2:30–3:20   **Invited Talk**: Uwe Mönnich

3:30–4:00   coffee break

4:00–5:45   *Poster Session #1* (5 posters – see page 3)

8:00   *Workshop Dinner*

Sunday, June 8th, 2008

9–9:50   **Invited Talk**: Stuart Shieber

9:50–10:00   short break

10:00–12:00   *Poster Session #2* (6 posters – see page 3)

12:00–2:00   lunch break

2:00–2:30   *Compositional Semantics of Coordination using Synchronous Tree Adjoining Grammar.*
Chung-hye Han, David Potter and Dennis Ryan Storoshenko.

2:30–3:00   *Synchronous Vector TAG for Syntax and Semantics: Control Verbs, Relative Clauses, and Inverse Linking.*
Rebecca Nesson and Stuart Shieber.

3:00–3:30   *Non-local scrambling: the equivalence of TAG and CCG revisited.*
Julia Hockenmaier and Peter Young.

3:30–4:00   coffee break

4:00–4:30   *Processing of Elliptic Coordination using Multi Component TAG.*
Djamé Seddah.

4:30–5:00   *Factorizing Complementation in a TT-MCTAG for German.*
Timm Lichte and Laura Kallmeyer.

Poster Session #1

- *TuLiPA: A syntax-semantics parsing environment for mildly context-sensitive formalisms*. Yannick Parmentier, Laura Kallmeyer, Wolfgang Maier, Timm Lichte and Johannes Dellert.

- *A Layered Grammar Model: Using Tree-Adjoining Grammars to Build a Common Syntactic Kernel for Related Dialects*. Pascal Vaillant.

- *Reflexives and TAG Semantics*. Robert Frank.

- *Towards Accurate Probabilistic Lexicons for Lexicalized Grammars*. Naoki Yoshinaga.

- *Is Coordination Quantification*? Kevin Lerman and Owen Rambow.

Poster Session #2

- *Plasticity of grammatical recursion in German learners of Dutch*. Doug Davidson and Peter Indefrey.

- *Metagrammar for Vietnamese LTAG*. Hong Phuong Le, Thi Minh Huyen Nguyen and Azim Roussanaly.

- *Feature Unification in TAG Derivation Trees*. Sylvain Schmitz and Joseph Le Roux.

- *Modeling Mobile Intention Recognition Problems with Spatially Constrained Tree-Adjoining Grammars*. Peter Kiefer.

- *Across-the-Board Extraction in Minimalist Grammars*. Gregory Kobele.

- *Reflexivity in English: An STAG Analysis*. Dennis Ryan Storoshenko, Chung-hye Han and David Potter.

Friday, June 6th, 2008: Tutorial Session

9:15–10:45	*Syntax and LTAG* Bob Frank
11:15–12:45	*LTAG Semantics* Maribel Romero
2:15–3:45	*Metagrammars* Denys Duchier
4:15–5:45	*TAG Parsing* Eric de la Clergerie
